ECZEMA BROKE OUT IN WATER BLISTERS

Scratched It So Hard All Sore. On Hand, Then on Legs. Cuticura Soap and Cuticura Ointment Cured in Six Weeks.

748 Congress St., Chicago, Ill.—"My eczema broke out like little water blisters. Each one was full of water and would itch until I would scratch it open, then the water would run out and it would get sore. I first got the eczema on the back of the hand and I scratched it so hard I made it all sore. Then I got it on my legs just above the ankle and above the knee.

"and it stopped the itching but it got worse. Then I used Cuticura. In all I had the trouble for about two years. One day I saw the advertisement of Cuticura Soap and Ointment in the paper. I wrote for a sample of Cuticura Soap and Ointment and I tried them and then bought some more. Cuticura Soap and Ointment left my sores nice and smooth. I used them for six weeks, and am now cured; the eczema left no marks." (Signed) F. W. Horrich, Oct. 19, 1912.

Although the Cuticura Soap and Ointment are most successful in the treatment of eczema of the skin, scalp, hair and hands, they are also most valuable for everyday use in the toilet, bath and nursery because they promote and maintain the health of the skin and hair from infancy to age. Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card to "Cuticura, Dept. T, Boston."

See Men who share and shampoo with Cuticura Soap will find it best for skin and scalp.

Governor Colquitt and Texas Rangers Restive Over Mexico

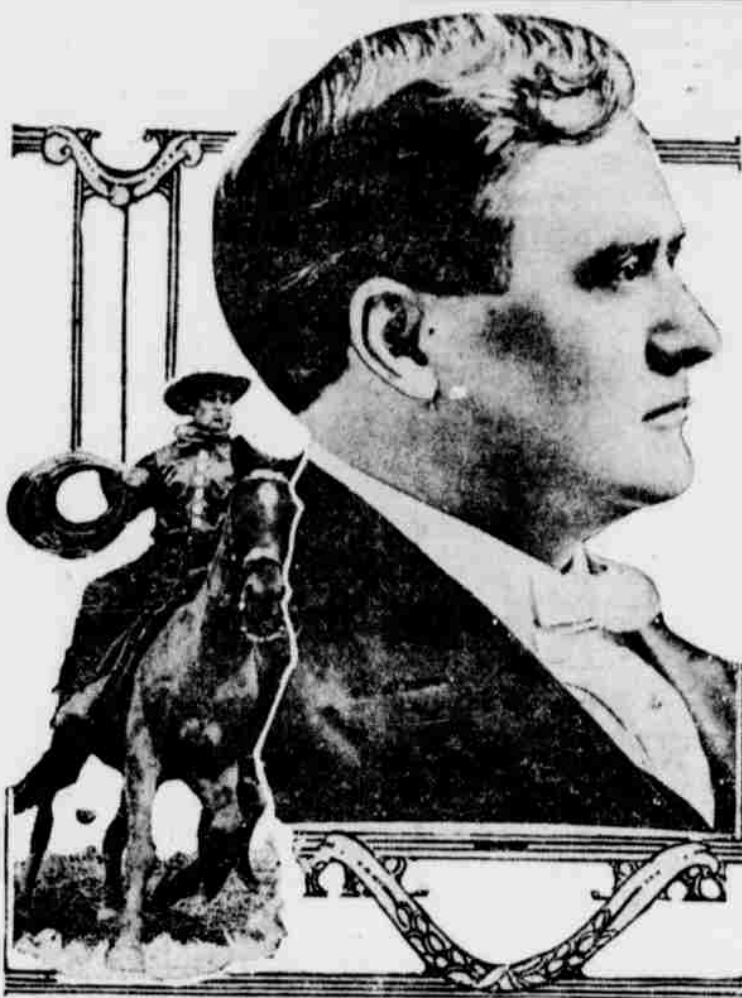

Photo of ranger by American Press Association.

GOVERNOR OSCAR R. COLQUITT, Democrat, of Texas, backed by the governors of the other border states, appealed to the state department at Washington for permission to send the Texas rangers across the border into Mexico to arrest alleged slavers of a Texan. His request was denied, but two additional regiments of United States soldiers were sent to strengthen the federal force on the Texas border.

United States for a period of a year and this will be his second visit to Calumet. He is a forceful speaker.

NORWEGIAN-DANISH M. E.

IMPROVEMENTS WILL COME UP

Council to Hold Regular Meeting on Tuesday Evening

Plans for the many improvements contemplated in the village of Laurium, including the repairs to the macadam pavement on Lake Linden avenue and the south and north blocks of Hech street, the remodeling of the town hall and the construction of additional cement sidewalks will be given further consideration at the regular meeting of the Laurium council Tuesday evening. It is probable the meeting will be one of the most important of the summer, although it precedes a number of special meetings required by law which are to be held this month.

No decision has been reached as to the nature of the paving work to be undertaken. There is little doubt that some improvements will be made, but it is hardly likely the cost will be as great as that of the grand old pavement laid a few years ago. It is recognized that macadam is hardly durable enough to warrant its being laid on these streets, so the council is seeking some form of pavement which will give greater service and may be laid at a smaller cost than grand old. It probably will be some form of cement pavement.

Sketches likely will be presented at the meeting for the proposed remodeling of the town hall property, mention of which was made a short time ago in these columns. It is hardly likely the remodeling plan will be quite as elaborate as that considered early last summer and which was later abandoned.

The council will likewise hear the report of the committee authorized to interview the owners of property lying to the east of the village and which is desired for park purposes. If the price quoted is reasonable, and there is every reason to believe it will be, the council undoubtedly will seriously consider acquiring the property and may take the initial steps in this direction Tuesday evening.

Another matter to come up is the petition from members of the fire department asking for an increase in salary. The communication from the firemen will show the Laurium department receives less remuneration and is called into service more frequently than any department in Houghton county.

The council is required to hold another meeting the second Monday of the month, to consider and act upon the appointments made by the president. Whether there will be any changes in the present list of appointive officers is unknown.

On April 15, the council will meet to consider applications for liquor licenses. Fourteen such applications have already been presented and it is expected seven or eight will be received in addition before the date set for this meeting. Meetings will be held later in the month to approve the bonds of applicants who meet with the council's approval also the bonds of village officers.

AWARDED BIG CONTRACT.

You Have Nasal Catarrh Not Very Bad, But--- It Bothers You a Good Deal.

Some people have nasal catarrh and know it. Not only the patient knows it, but all of his friends know it. Many people know it that are not his friends. Just those people who happen to meet him in the street car or on the public square.

That sort of a nasal catarrh need not be described. Everybody knows the symptoms without their disgusting recital.

Peruna helps such cases every day. Thousands have attested to this fact unqualified. Peruna benefits even the worst cases of old nasal catarrh.

But there are cases of nasal catarrh not so evident. One nostril is stopped today. The other nostril is stopped tomorrow. Cannot breathe freely through the nostrils. Easy to sneeze. Mucus in the nose too thick. Sometimes forms brownish lumps. Catches cold easily. Never quite free of a cold. These symptoms describe a case of subacute nasal catarrh.

Many people have it, and some who would not admit they have nasal catarrh.

An army of men and women have been benefited by Peruna. You might as well become one of the benefited ones as to allow it to go on any further.

He recalls the fact that he snored some now, whereas he did not previously.

Subacute nasal catarrh. Or we might call it incipient nasal catarrh. Or, still better, nasal catarrh just beginning and becoming chronic.

Now is the time to take Peruna. A little Peruna will do wonders at this stage of the disease. Snuff a little weak salt water every morning (use "Life" salt sent free by Peruna Co., Columbus, Ohio). Just enough to clear out the nose. Take a dose of Peruna before breakfast. Hold it in the mouth. Let it trickle down slowly and breathe the fumes of it out through the nose as you swallow it.

This will stop an incipient case of nasal catarrh in a few weeks. Stop it entirely. The nose begins clear again. The mouth is sweet. The breathing free. No more sneezing, or snuffing, or sniffling, or sneezing cold easily. All of these things are in the past.

He knows he must blow his nose freely. He remembers that he does not breathe easily through the nose.
